### WOMEN GREET M'KINLEY

PUBLIC RECEPTION TO THE MAJOR, HIS WIFE AND MOTHER.

Thousands of Women Greet the Candidate and Family-Speech by a Woman that Affected McKinley-His Response to the Sentimen's-A Notable Day in Canton.

CANTON, O., June 28 .- 'The women's recention to Major McKinley, his wife, and his mother this afternoon was really brilliant. It was not unlike the public receptions at the White House. The crowd was numbered by the thousands, and was notable for the intermingling of all grades. Old age walked side by side with youth and beauty in the long and orderly line, reaching from the portals of the house far out into the street. The reception lasted for two hours.

A distinctive feature in this event was the ab sence of men. Save Major McKinley on the receiving platform and a score or more of news paper men, not a man was visible during the reception. The affair was held at the old home of the late Jacob Miller, a place peculiarly adapted to the occasion, with spacious lawns, broad halls, and capacious rooms. As the house at present is unoccupied, there were no restric tions as to the decorations and arrangements. ctricians were first set to work. The blinds were closed during the reception, and the lights produced a fine effect. There were many nove illuminations, the most notable being a particolored crown over the receiving stand. Drapers and florists came in turn to add their artistic touches. The ladies of the flower mission held ribbons at either side of the aisle through which the guests passed.

The reception opened with guests massed on the lawn, and the McKinleys, members of the receiving party, and the woman who was to speak on behalf of her-fellow women of Canton and Stark county on the west balcony. This spokeswoman was Mrs. Alice Danner Jones, one of the brightest and most eloquent women in Ohlo. She said in part:

"The path which we now see so plainly lead-ing to the White House had its beginning withthe doorway of the little frame he Niles. There the wisdom of a father and the loving guidance of a mother laid the foundation stones in a young boy's life of the justice, the sagacity, and the charity which characterize the statesman of to-day. Ah, mother! the little hands you guided then have been growing stronger as your own have grown more feeble Life's discipline of calm and storm has left it marks upon your boy's face, but the lessons and songs are still remembered, and the touch of your aged hands upon his hands to-day is a moe power for good so pure, so limitless in its ch that only balances unseen can estimate

tive power for good so pure, so limitiess in its reach that only balances unseen can estimate its worth.

"Mrs. McKinley, over twenty-five years ago you prophesied Canton's future pride in Canton's young attorney. You plighted to him your girlish faith, and within the old Presbyterian Church you linked your life with his. Canton has been proud of him for many years and Canton has been proud of you. Gov. McKinley's every act to-day bears upon it the stamp of his association with a refined, exalted womanhood. So purely womanly is your wifely devotion, so in sympathy with his every interest has your life always been, that were you not a part of it to-day we believe that, like Lafayette, he would exclaim, in the bitterness of his heart: 'She was so one with me that life seems robbed of half its power without her.' Proud ars we of our statesman, are we of a wife's and a mother's part in giving to us one in whom we all can safely trust. Women such as you, have given to our nation in the past her noblest, bravest sons.

"Our men may deal with questions of tariff and finance and political policy; we women believe that the importance of pure living is higher than all, and are satisfied that should you be called to preside over the destinies of the nation we shall have a man at the head with a character so pure and a record so untarnished that any mother here to-day would feel proud to know that the steppings of her little boys might be in lines parallel with this."

Major McKinley was much moved by the address, particularly by the references to his aged mother and his dead father. His response was delivered in a manner far different from that which characterized others. He spoke briefly, saying:

"Women of Canton, I am sure that wife and worker would have me vorces their warm."

which characterized others. He spoke briefly, saying:

"Women of Canton, I am sure that wife and mother would have me express their warm appreciation of the gracious words spoken in their presence; and I assure you that no higher honors can come to me than this loving tribute you have paid to those who are so near and dear to me: and, in a single word, no higher commendation can come to any man than to have the approval of the mothers and the sisters of his city with whom he has dwelt so long. It will give wife and mother both the greatest pleasure to wife and mother both the greatest pleasure t

wife and mother both the greatest pleasure to meet you sil."

The speaking over, one little gri carried a magnificent cluster of roses to the wife and another to the mother. The party on the balcony retired to the house and soon the doors were thrown open and the immense crowd filed through the corridors, while an orchestra concealed behind a bank of paims played. On the receiving platform with the guests of honor were: Miss Helen McKinley, the Major's sister: Mrs. Mosher McKinley and daughter Mabel of Kew York, Miss Grace McKinley, the Major's niece; Mrs. William M. Osborne of Boston, Mrs. M. C. Barber, Mrs. McKinley's sister and her daughter May, Mrs. A. J. Dunsister, and her daughter Mary; Mrs. A. J. Dun-can of Cleveland, the Major's aunt, and Mrs.

sister, and her daughter Mary; Mrs. A. J. Duncan of Cleveland, the Major's aunt, and Mrs.

Heistand.

Mother McKinley wore a plainly made gown
of rich black silk with a dainty cap of black
silk. Her face beamed with gladness, and she
took intense delight in the incidents of the day.

Mrs. William McKinley, Jr., wore a superb
gown of ondescent silk, which in the shifting
rays of light constantly changed from delicate
pink to light blue. The trimmings were of light
files satin and point lace. She wore diamond
ornaments. The other lattles of the party were
all most handsomely gowned.

The visitors of consequence to-day were
Charles Emory Smith of Philadelphia, Chris
Magee, Ellis nigelow, and Henry On Bonnhurst of Pittsburgh and opponents of the Quay
faction: Charles 6. Dawes, the youthful but
energetic politician and business man of Chicage; ex-State Labrarian Joseoh Smith, and S.

G. Guid of Lockport, N. Y. The latter would
give no clue to his identity except that he is a
manufacturer. What he manufactures or why
he came is Canton he declined to say. Mr.
Magee also declined to be interviewed and said
he had merely come with the other Pittsburghers for company, and to emphasize this he went
to a hotel first and then Joined the others as if
by mere accident at the McKialey home. Ostensibly the others came to add their entreaties
to the invitation already sent to the Major to
speak in Pittsburgh on July 4.

It was naturally supposed that Magee's coming at this time meant that he was endeavoring
to upset any little plan that may be set up
when Senator Quay comes the next time. But
it is said to-night by those who say they know
that a more specific object was to use his influence against making H. H. Kohlsaat prominent in the campairn management.

It is now pretty nearly established that
Chairman Hanna will not go outside of the
National Committee for his Executive Committee, but that he will create an advisory committee of a number yet to be decided
and made up of business men and manufacturers.

are speculated upon as members of the advisor;

are speculated upon as members of the advisory committee.

The story is given out to-day that to Senator Quay has been offered the Chairmanship of the Erecutive Committee by Major Dick, Mr. Hanna's right-hand man says the personnel of that committee will not be concluded until the Chicago Convention concludes who and what the opposition will be. Charles Emory Smith, in an interview, emphasized the assertions recently made that the money plank in St. Louis had its origin in Ohlo, and was practically accepted on Friday and fully adopted saturday before the Convention by the McKinley managers before the Eastern men began their clamor. He says that both the money and the tariff are to be campaign issues, and that the lead will vary in different localities according to local conditions.

It is given out here late to-night on authority of Richard Quay that his father has made no arrangements to come to Canton next week, and is at a loss to know how the newspaper story to that effect started.

IT WASN'T HANNA'S GOLD PLANK. So Gov. Bushnell Says-And He Thinks the

War on Platt Ill Timed. Gov. Asa S. Bushnell of Ohio is at the Fifth Avenue Hotel. The Governor was a delegate at arge from Ohio at St. Louis, and during the sessions sat next to Mark A. Hanna. To a Sun reporter who asked him about Mr. Hanna's claim that the gold plank in the platform was

his own, the Governor said: "I saw that plank in its original draft and after it had been amended with a lot of inter lineations. The real authors of that plank were the members of the Sub-Committee of Nine on Resolutions. I would not detract from the honor of the men from the East who contributed to make it, either. Every one knows that Mr. Platt and Senator Lodge had a good deal to do with it. Senator Lodge was a member of that sub-committee. So was Mr. Lauterbach.

who was Mr. Platt's right hand in this matter. "When our delegation went to St. Louis, Ger Grosvenor and several others said they did not think the word gold ought to be in the plat form. I said that if we meant gold we ought to say gold and say it in the plainest way possible. It came about that that

est way possible. It came about that we did finally, and Mr. Platt. Senator Lodge, and other Eastern men had a good deal to do with the result. They certainly were very frank and open in their expressions of opinion on this subject of the money plank, as we of Ohlo have reason to know.

"I think that there is altogether too much being done just now in the way of attempts to belittle Mr. Platt's work for the gold plank and too little in the way of work for our candidates. I see that attacks are being made on Mr. Platt by local Republicans who want to run the McKinley campaign. We of Ohlo look with great respect on the Republican organization of New York State. We consider it the best and best discibiled in the Union, and we want its efforts directed toward securing the success of our ticket and principles."

Senator Lodge came on from Boston Thursday night and had a long talk with Mr. Platt yesierday morning. Neither he nor Mr. Platt thought that it was necessary to reply to the claims of Mr. Hanna and others regarding the authorship of the gold plank.

#### CAMPAIGN WORK BEGUN.

The Republican Congressional Committee WASHINGTON, June 26 .- Although the real labor of the Republican Congressional Committee has not fairly begun, there is consider able preliminary work now in progress, and the committee's headquarters at the Normardie Hotel show signs of decided activity. The committee occupy six rooms at the Normandie in addition to a building on I street, where documents are stored, and from which place they will be distributed to the various districts. It is Chairman Babcock's purpose to make his committee an effective auxiliary of the National Committee. In pursuance of this pur pose, he will confer with Mr. Hanna's Execu-tive Committee, with a view to securing an equitable adjustment of the work. Before leaving the city for New York a few days ago, Mr. Babcock expressed entire satisfaction with the political outlook. He does not doubt that the Republicans will capture a sufficient number of districts to give them the control of the next House by a good working majority. While the literature which will be sent out from headquarters will include several scores of speeches on tariff and finance, other data of an interesting general character are also being prepared. Among the speeches which are now being distributed in the Western States, which will be the storm centre of this year's political cyclone, are those of McCleary of Minnesota on wages and prices as affected by the present monetary system—a speech which was delivered to refute the argument made by Congressman Towns, a brilliant young Republican from the same State, who will be one of the foremost champions of the white metal in the coming campaign. Congressman Apsley's speech on protection and reciprocity, showing the effect on the revenues of the ropeal of the Tariff law of 1890; Johnson's of North Dakota, on silver and wheat; Speaker Reed's, in opposition to the Wilson Tariff bill in the Fifty-third Congress, and Senator Sherman's of Ohio on finance, are other speeches which it is purposed to circulate widely. from headquarters will include several scores of

#### MORE ST. LOUIS ENDORSEMENTS. The Union League Club in Brooklyn Hears

The Union League Club in Brooklyn ratified last night the work of the St. Louis Convention. On the wall back of ex-Senator Charles H. Russell, the Chairman, a large crayon portrait of Major McKinley, draped in the Stars and Stripes, was suspended. Mr. Russell advised thorough and constant campaign work, and warned his Republican brethren that they should not labor under the delusion that they were going to have a walkover.

A brief letter from Mr. McKinley to President William Berri of the club, in response to an invitation to visit Brooklyn, was read. He said: "Should it happen that I come Fast, it will give me great pleasure to be the guest of the Union League Club."

Resolutions strongly endorsing the St. Louis platform, and particularly the gold plank, were adopted.

Park Commissioner Timothy L. Woodruff, who was a delegate to the Convention, and voted for Gov. Morton, made the principal address. He declared McKinley "the logical candidate of the hour" and "the choice of the Republicans of the United States."

The other speakers, all of whom are identified with the administration faction, were: Benjamin F. Biair, Walter B. Atterbury, Congressman Francis H. Wilson, and Wallace Bruce. warned his Republican brethren that they

#### BUITE GOES WILD OFER A BOLTER. Congressman Hartman Welcomed as a Con

quering Hero by the Silverites. BUTTE, Mont., June 26,-Congressman Charles S. Hartman, the Montana delegate who followed Henry M. Teller in the St. Louis bolt, visited Butte yesterday and got the greatest reception ever accorded a public man in the State. Several hundred silver men, including some of the most conspicuous citizens of Butte, pulled the Congressman's carriage from the station to the hotel, a full mile. The city had a holiday appearance. Bands

city had a holiday appearance. Bands paralled the streets and buildings were decorated in honor of the visitor.

Last night Congressman Hartman addressed a meeting of between 4,000 and 5,000 people. He declared that the silver Republicans had deserted the national organization for good, or until the party returned to the people. He predicted a sweeping victory for the Democratic party in case it should nominate a free-silver man on a straight 16 to 1 platform. He favored Henry M. Teller as the strongest man the Democrats could nominate, and said the ariff could not be made an issue in this campaign. The demonstration was strictly non-partisan.

#### SOUTH DAKOTA SILVERITES. Democratic Bolters from the Aberdeen

HURON, S. D., June 26 .- A conference of Democrats who advocate the free colnage of ilver on a 16 to 1 basis was held here yesterday afternoon. Most of those present were men who left the State Democratic Convention at Aber-deen and accepted the task of presenting a protest against the action of the Aberdeen Conprotest against the action of the Aberdeen Convention to the National Convention at Chicago, Dr. Ross was named to take charge of the delegation to Chicago, and present the petition asking for a free silver plank in the platform and the recognition of the South Dakota free silver delevation. The delegation's headquarters will be at the Sherman House after Monday. Dr. Ross says that four-fifths of the Democrats of this State and all of the Democratic newspapers but one are for the free coinage of silver.

## BLAND'S BOOM.

His Headquarters to Be Opened in Chicago

Sr. Louis, June 26.—Bland headquarters will be opened in Chicago on next Monday. Col. Nicholas M. Bell, Col. Joseph K. Rickey, and George W. Allen will be in charge. They are all members of the Bland Executive Committee of which Gov. Stone is Chairman.

Gov. Stone's newspaper organ announces that after the meeting of the National Executive after the meeting of the Astional Executive Committee of the Democratic Bimetailic League at Chicago on next Thursday a conference of the representatives of all of the sliver forces of the nation will be held in Chicago. At this conference Bland's nomination will be urged by his friends.

PATERSON, June 26.-Garret A. Hobart will not go to Canton this week, and he is unable to say with certainty when he will go. The date for Mark Hanna's expected visit to Paterson has not been set. Mr. Hobart went to New York to-day on personal business.

SILVER'S CHICAGO PLANS THREE MEETINGS TO BE HELD

BEFORE THE CONVENTION. enders in the Free Coinage Mevement to Meet Next Week to Try to Secure an Out-and-out Silver Plank from the Democrats—The Work as Mapped Out,

CHICAGO, June 26 .- The active campaign of the various silver elements preparatory to the Democratic National Convention will be begun on Tuesday next, when the bimetallic National Democratio Committee, which is made up of leading silver Democrats throughout the country, will assemble at the Sherman House. Already a large quantity of mail matter, much of it bearing the postmarks of Western cities, awaits Secretary T. C. Towle of Missouri, who is expected to arrive to-

morrow or Sunday.

Telegrams were also received this morning from United States Senators Jones of Arkansas and Harris of Tennessee, saying that they will arrive on Sunday, and asking that telegrams and letters be held. The large club room of the hotel and six conference rooms have been engaged for the meeting, which promises to be very largely attended, the Democratic National Committeemen of a number of Western and Southern States having telegraphed for accommodations for themelves and friends. Senator Turple of In diana, Gov. W. J. Stone of Missouri, Secretary of State W. H. Heinrichsen of Illinois, and the Hon, Carey Young of Memphis, Tenn., are members of the Executive Committee. Theodore Nelson, Secretary of the Democratic State Central Committee, who is in control of the preliminary arrangements, said this morning:

"The conference will commence on Tuesday and its work will continue until the Democratic National Convention has adjourned. The main purpose is to influence if not to determine the platform position of the Convention, and we expect to exert a potent if not a controlling influence in that gathering. The leading sliver men of the country will be here with us and will have a full share in our deliberations. Senator Jones of Arkansas recently sent a circular letter to each silver delegation elected to the National Convention, asking that one member be selected to meet with us next week and take charge of the silver cause in his delegation, as well as to keep a general watch upon affairs. The responses have been very numerous and the conference will be thoroughly representative and harmonious."

A week from Sunday the members of the Executive Committee of the American Bimetallic Union will assemble in this city preparator, to a Convention on the following day. The participants will include Gen. A. J. Warner. Ohio; B. C. Chambers, Utah; Henry G. Miller, Illinois; J. B. Grant, Colorado; Joseph Hattell, Vermont; William M. Stewart, Nevada; Marion Butter, North Carolina; Thomas G. Morrill, Montana, and James M. Turner, Michigan. The union is a nonpartisan organization, its purpose being to promote a sentiment favorable to sliver by the distribution of literature and by providing speakers for public meetings. Its national headquarters are in the Hartford building in this city, and it is probable that during the sessions of the Convention these will be connected by wire with the Eastern office in Washington and the Mills building at San Francisco, in order that prompt conference may be had when necessary with sliver advocates who are unable to make the trip to Chicago.

National Secretary George E. Bowen said the montant of the convention these will be connected to make the trip to Chicago. The main nurpose is to influence if not to determine the platform position of the Conven-

necessary with silver advocates who are unable to make the trip to Chicago.

National Secretary George E. Bowen said this morning:

"The object of the meeting is to look over the ground on the eve of the assembling of the Democratic Convention and see what can be accomplished in the way of a union of the bimetallic forces, in order that the country may if possible be concentrated on one candidate.

H. F. Bartine, editor of the National Bimetallics, added that from hundreds of letters which were being received daily from all parts of the country it was apparent that the Pounlist party was anxious that the Democrats should take neutral ground in the matter of candidates and nominate a ticket upon a strictly silver platform, which would be acceptable to the forces of the People's party. "It is apparent from this correspondence," he said, "that if Senator Teller should be northanted here he will receive the endorsement and support of the Populists. As to any other candidates I cannot say so much."

Hetween these two meetings there will be yet another. A week from to-incrow the Executive Committee of the silver party will open headquarters at one of the leading hotels. This is a sirf tily political organization, brought into existence at Washinston over a year ago, and has for its object the employment of existing political machinery to advance the silver cause. It is allied with the Himetallic Union in that the latter first creates a sentiment by means of its literature, while the new silver party follows up that propagands by creating county and State organizations and thus putting the political machinery into action. As in the other cases the purpose of the meeting, which has been called by the National Chairman, Dr. Mott of South Carolina, is to assist in rallying and concentrating the silver delegates to the end that a stradding platform may be avoided and a clean-cut decolaration made in favor of the white metal. All three committees will act independently, but harmoniously.

## NOW FOR CHICAGO.

Ontelders Will Be Appointed Officials a

CHICAGO, June 2d. The sub-committee general arrangements, press, and telegraphic facilities for the National Democratic Convention, consisting of National Secretary Sheerin of Indiana, Mr. Wall of Milwaukee, Mr. Shirley of Louisville, and Mr. Prather of St. Louis, met at the Palmer House at 11 o'clock this morning to consider the matters under their charge. It was said that the applications for press seats were largely in excess of those of the St. Louis the facilities would be necessary. Sergeant at-Arms Martin was called in, and

behind closed doors the sub-committee discussed his determination to make up his list of doorkeepers, deputy sergeant-at-arms, and all other sub-officials having control of entrances from applicants outside of the city. During a brief recess at non-Col. Frather said:

"Col. Martin has the proper idea. We do not want people on the doors who can be approached or who will utilize their opportunity to admit friends and acquaintances without the presentation of tickets. This convention must not be run by outsiders, and the only way to confine the attendance to those who are entitled to admission is to put strangers on the doors who will strictly attend to their business. I believe Col. Martin is right in the stand he has taken, and the committee will sustain him."

Preparations are being made in Chicago to have delegations of the Iroquola Club and other Democratic organizations meet incoming delegations to the National Democratic Convention. Wherever delegations arrive in a body, an effort will be made to meet them at the stations with an escort consisting of a marching club and a hand a march has doorkeepers, deputy sergeant-at-arms, and all

body, an effort will be made to meet them at the stations with an escort consisting of a marching club and a hand of music to escort them to their respective headquarters.

Chairmen of delegations which have decided to come to Chicago in a body should write or relegraph the train and time of their arrival to Mr. Harry Wilkinson, Secretary of the Reception Committee, at the Iroquola Club, Chicago. They will be notified in return, of the specific preparations made for their reception. Delegates not coming in a body will be met by committeemen and directed to their quartors. If application is made to the Reception Committee.

Referring to the epi-sode of Wethesday, Mr. Hynum said; "I had the Convention in a trap, but the managers did not see it until it was too late." "What do you think of the situation?" "Well, Indiana is very evidently in favor of free silver."

"Weil, Indiana is very evidently in favor of free sliver."

"What do you think of the treatment accorded you by the Convention?"

"It was anything but fair. In fact I never saw a more giaring exhibition of tyranny, injustice, and despotism."

"You did not say in your speech that you would not support the ticket. What is your position?"

"I do not see how a man can vote against his honest convictions, though I have not said that I will not support the ticket."

PERRY BELMONT ON THE OUTLOOK.

Mis View of the Saratoga Platform and the Silver Raid to Come in Chicago. PARIS, June 26.-The Hon. Perry Belmont gave an interview at the railway station tonight as he was about to start for Havre on his way to Chicago, where he will attend the National Democratic Convention on July 7. The full text of the platform adopted at the New York State Democratic Convention in Saratoga has not been received here, and, therefore, Mr. Belmont said, its precise scope could not be appreciated. If, however, as he believed, the platform declared that the New York Democracy protested against any further purchase silver by the Treasury and against silver coinage otherwise than on the basis an international agreement, and that the Democracy would do everything possible to obtain and secure a fixed international ratio between the two metals, and if it had urged the cancellation of greenbacks and treasury notes hereafter presented to the Treasury and paid in gold, its utterance would command the approbation of an overwhelming majority of the

voters in every Eastern State. Mr. Relmont said he had known quite well during his years in Congress a great many of the Southern Democrats who are pressing for the immediate free columns of silver at the ratio of 16 to 1, and had met them four years ago at Chicago, when they contributed to the nomination of Mr. Cleveland. Mr. Belmont did not beleve that those Southern Democrats now wished or would tolerate disunion at Chicago of the naional Democracy.

"The State of New York," continued Mr. Belnent, "is now committed by both of its party organizations to international bimetallism Democratic leaders such as Tilden and Manning have favored it in the past, and the Southern Democracy also. The Governor of the Bank of France told me a few days ago that France con not and will not consent to a ratio of 16 to 1. France prefers 1516 to 1. If the national Democracy at Chicago will remain united Mc-Kinleyism can be crushed in November, and a fixed international ratio for sliver and gold put within range of practical effort. Another McKinley tariff can be prevented, the issue of more Government bonds made unnecessary, the national credit upheld, our exports increased, and the wages of working men North and South not be reduced to a fifty-cent dollar. It must be that, rather than have disunion in the national Democracy, as in 1860, the Southern Democrats, with whom New York cooperated in the 1892 election of Mr. Cleveland, will consent to a reasonable plan by which free silver coinage can be deferred until a practical effort is made by a Democratic President and Democratic Congress to obtain a fixed international bimetallic ratio."

### GORMAN GIVES UP THE FIGHT.

and that Botes Will be Named, BALTIMORE June 26 .- Senator Gorman posttively will not go to Chicago for the National Convention. He does not think there is any ver tide, and believes that a free-silver candidate will be commated. When asked whom he thought the Democrats would nominate, he "It looks like Boies."

As soon as the Senator made known his final decision, Chairman Talbot of the State Democratic Committee designated ex-State Treasurer Spencer C. Jones to serve as delegate at large in place of Charles C. Homer, who gate at large in place of Charles C. Homer, who declined to serve. The place has been held open for Mr. Gorman for some days.

The delegation from Maryland, Senator Gorman says, is a thoroughly representative body, fully competent to voice the sentiments of the party in this State. He is confident that it will stand up manfully for the principles which it desires to see embodied in the platform, and do everything that is nossible to convince the sliver men of the conviction of the party in Maryland that the advocacy of the free colonge of sliver is unwise, insincere, and deep-seated.

There was a time several months age, when,

There was a time several months age, when, the Senator thinks, the free sliver craze might have been checked, and the National Convention guided toward the nomination of a conservative candidate on a conservative platform. Senator Gorman's conversation might justify the inference that he holds Mr. Cleveland chiefly responsible for the present condition of the party. It is doubtful if the Senator will accept reappointment on the National Committee. Certainly he will not be on the Executive Committee of that body. Next week he may go to Saratoga, and later to the Yellewstone and Pacific slope, but he has no definite plans yet.

Mr. Gorman does not think Teller stands much chance for the Democratic nomination. There was a time several months age, when

## Smith Says Carilole Told Foster and Foster

KALAMAZOO, Mich., June 26, The Telegraph prints an interview with Henry H. Smith, in which he says that ex-Secretary of State Foster told him that Secretary Carlisle told Foster he would vote the Republican ticket this year if the Democrats declared for free silver. Smith says Foster made this statement within twenty minutes after Carlisle made it to Fusier. Smith says he has talked with Carlisle several times within the past two years. Smith will have more to say about it when he sees Foster next week.

NO INCREASE IN OUR HOME FLEETS.

Another In Commissioned, WASHINGTON, June 20.-An order has been saued by the Secretary of the Navy which indicates that the President no longer apprehends trouble over either the Venezuelan or Cuban questions, and that he regards it as not necessary to maintain in active service and ready for immediate action the entire available fighting strength of the navy. He has therefore directed that a board be appointed to designate what vessels can be retired without inconvenience to the department or interference with the usual demands of the service in foreign waters. The

demands of the service in foreign waters. The disintegration of the fleet on the home station, and probably that on the Pacific coast, will not begin until the late summer.

The plan is to retire one battle ship as fast as another is ready for commission, and to keep but few of the monitors in service. The Indiana will be the first ship whose commander will haul down his flag, and will probably go out of commission in August, when Fighting Hob Evans's time expires and the Massachusetts joins Admiral Hunces flest. The Amphitrite will also give way to the Puritan at New York, and possibly the New York may go out before the close of the vear, as well as oncortwood the other largest cruisers. The idea is to make a thorough test of each new ship as she is added to the navy, and then to select those mest expensive to maintain and least efficient for cruising purposes, and lay them up in fresh water, probably at League Island, to prevent the growth of barnacles.

The board will fix the force of men to be maintained on these ships. The purpose is to have a sufficient force to get up steam at short intervals and to work the machinery, to insure that the ship shall be in readlness for service at short police. that the ship shall be in readiness for service at

## GOLD MONEY PROPAGANDA

REFORM CLUB SENDS PLATE MAT TER TO 1,800 NEWSPAPERS

Cartoons, Speeches, "Ready Prints," and Supplements Sent Out to the South and West and Circulated Since December Among Millions of Renders. The Executive Committee of the Committee on Sound Money of the Reform Club made its report on Thursday night of the work accomplished during the year, and especially since Dec. 1 last. The committee reported that it is now supplying 1,500 newspapers in the United States with plate matter, "ready prints," and supplements on sound money, at a cost of more than \$1,000 each week. Nearly \$25,000 has already been expended, and the committee says \$1,500 a week will be required to continue the work as it should be done. The committee says that the favorable and unfavorable comment which comes to the members from all over the South and West, where most of their matter is

ing up the work. Sound-money articles and cartoons are prepared in New York and sent to four newspaper associations, where the matter is set up and matrices are made. These matrices are sent to dozen branch offices, where plates are cast ready for printing. These plates are distribated free of cost, except for transportation, to the newspapers, where the articles are printed arranged that they may be cut into separate columns or separate articles, as the editors de-

NO MERCY FOR HAMMERSTEIN. The Man Who Once Led the German Torles

Must Do a Convict's Hard Labor.

BEHLIN, June 26.-The Supreme Court at Leipzig has rejected the appeal of Freiherr von Hammerstein, formerly leader of the Conservatives in the Reichstag and editor in-chief of the Kreuz Zeitung, from the sentence imposed upon him by the Berlin court upon his conviction of forgery on last April 22. The sentence of the court was that he be imprisoned for three years at hard labor; that he forfeit his civil rights for five years, and that he pay a fine of 1,200 marks. This sentence was regarded by both his friends and enemies was regarded by both his friends and enemies as extremely severe, it having been expected that, inasmuch as Hammerstein confessed errors and avoided disclosures which would have involved many of his former associates who are still in high places, that he would escape the isnominy of convict labor and receive a sentence of simple imprisonment.
